

2026 CCNC Organizing Committee

General Chair

Silvia Mirri, University of Bologna

TPC Chair

Howon Lee, Ajou University, South Korea

TPC Vice Chair

Luca Bedogni, University of Modena and Reggio Emilia, Italy

Awards Chair

Bang Chul Jung, Chungnam National University, South Korea

Keynotes Chair

Zhanghyu Guan, University at Buffalo, SUNY

EDAS Chair

Jeongho Kwak, Korea University, South Korea Asia

Media Chair

Chiara Ceccarini, University of Bologna

Web Chair

Ki-Hun Lee, Kunsan National University, South Korea

Workshops Co-Chairs

Thorsten Herfet, Saarland University, Germany

Won-Yong Shin, Yonsei University, South Korea Asia

Demonstrations Co-Chairs

Giovanni Delnevo, University of Bologna, Italy

Koji Ishibashi, University of Electro-Communications, Japan

2026 IEEE CONSUMER COMMUNICATIONS & NETWORKING

January 09 – 12, 2026//Las Vegas, NV

The IEEE Consumer Communications and Networking Conference (CCNC), sponsored by the IEEE Communications Society, is a major annual international conference. Taking advantage of its co-location with the International Consumer Electronics Show (CES), which is the world's largest tradeshow on consumer technology, CCNC is organized with the objective of bringing together researchers, developers, and practitioners from academia and industry working in all areas of consumer communications and networking technologies. CCNC 2026 will feature high-quality keynote, plenary talks, technical and industry papers, panels, tutorials, and demonstrations. In addition, the CCNC 2026 Organization Committee invites members of the research, development, and practitioner communities to submit Workshop and Special Session proposals. Workshops provide a forum for people to discuss areas of special interest with like-minded researchers and practitioners. Special Sessions complement the main program with new or emerging topics that are of particular interest to the consumer communications and networking community and may also cut across and beyond disciplines traditionally represented at CCNC. Research contributions are welcome in all areas pertinent to consumer communications and networking, including:

- Edge/Cloud Computing and Networking
- Networking Solutions for Metaverse, Social Applications, Multimedia, and Games
- Testbeds, Experimentation and Datasets for Communications and Networking
- Wireless Communications: Fundamentals, PHY and Above
- Beyond 5G and Towards 6G
- IoT: From Sensors to Vertical Applications
- Security, Privacy, and Content Protection
- Digital Twins for Networking and Communications
- Communications and Applications for Connected and Autonomous Vehicles on Land, Water, and Sky
- AI/ML for Communications and Networking
- Satellite Networks and Integrated Space-Air-Ground Networks
- Quantum Networking and Computing

Submission Deadline: 01 July 2025

Acceptance Deadline: 31 July 2025

Camera Ready: TBD
